

Why Diamon-Fusion?

Homeowners, designers, architects, and developers around the world are requesting Diamon-Fusion protective coating on their glass and silica-based surfaces. Its stain-resistant, easy-to-clean formula has been applied to millions of shower doors, as well as prestigious landmarks and commercial buildings globally. It is the leading choice of protective coatings for shower door manufacturers worldwide.

Diamon-Fusion has been independently tested to outperform other coatings in terms of durability and does not require any aftercare products to maintain the warranty.

Recommended Cleaning Products:

- ◆ Sprayway®
- ◆ Simple Green®
- ◆ Ammonia Free Windex®
- ◆ White household vinegar diluted with water
- ◆ Seventh Generation™ Natural Glass & Surface Cleaner

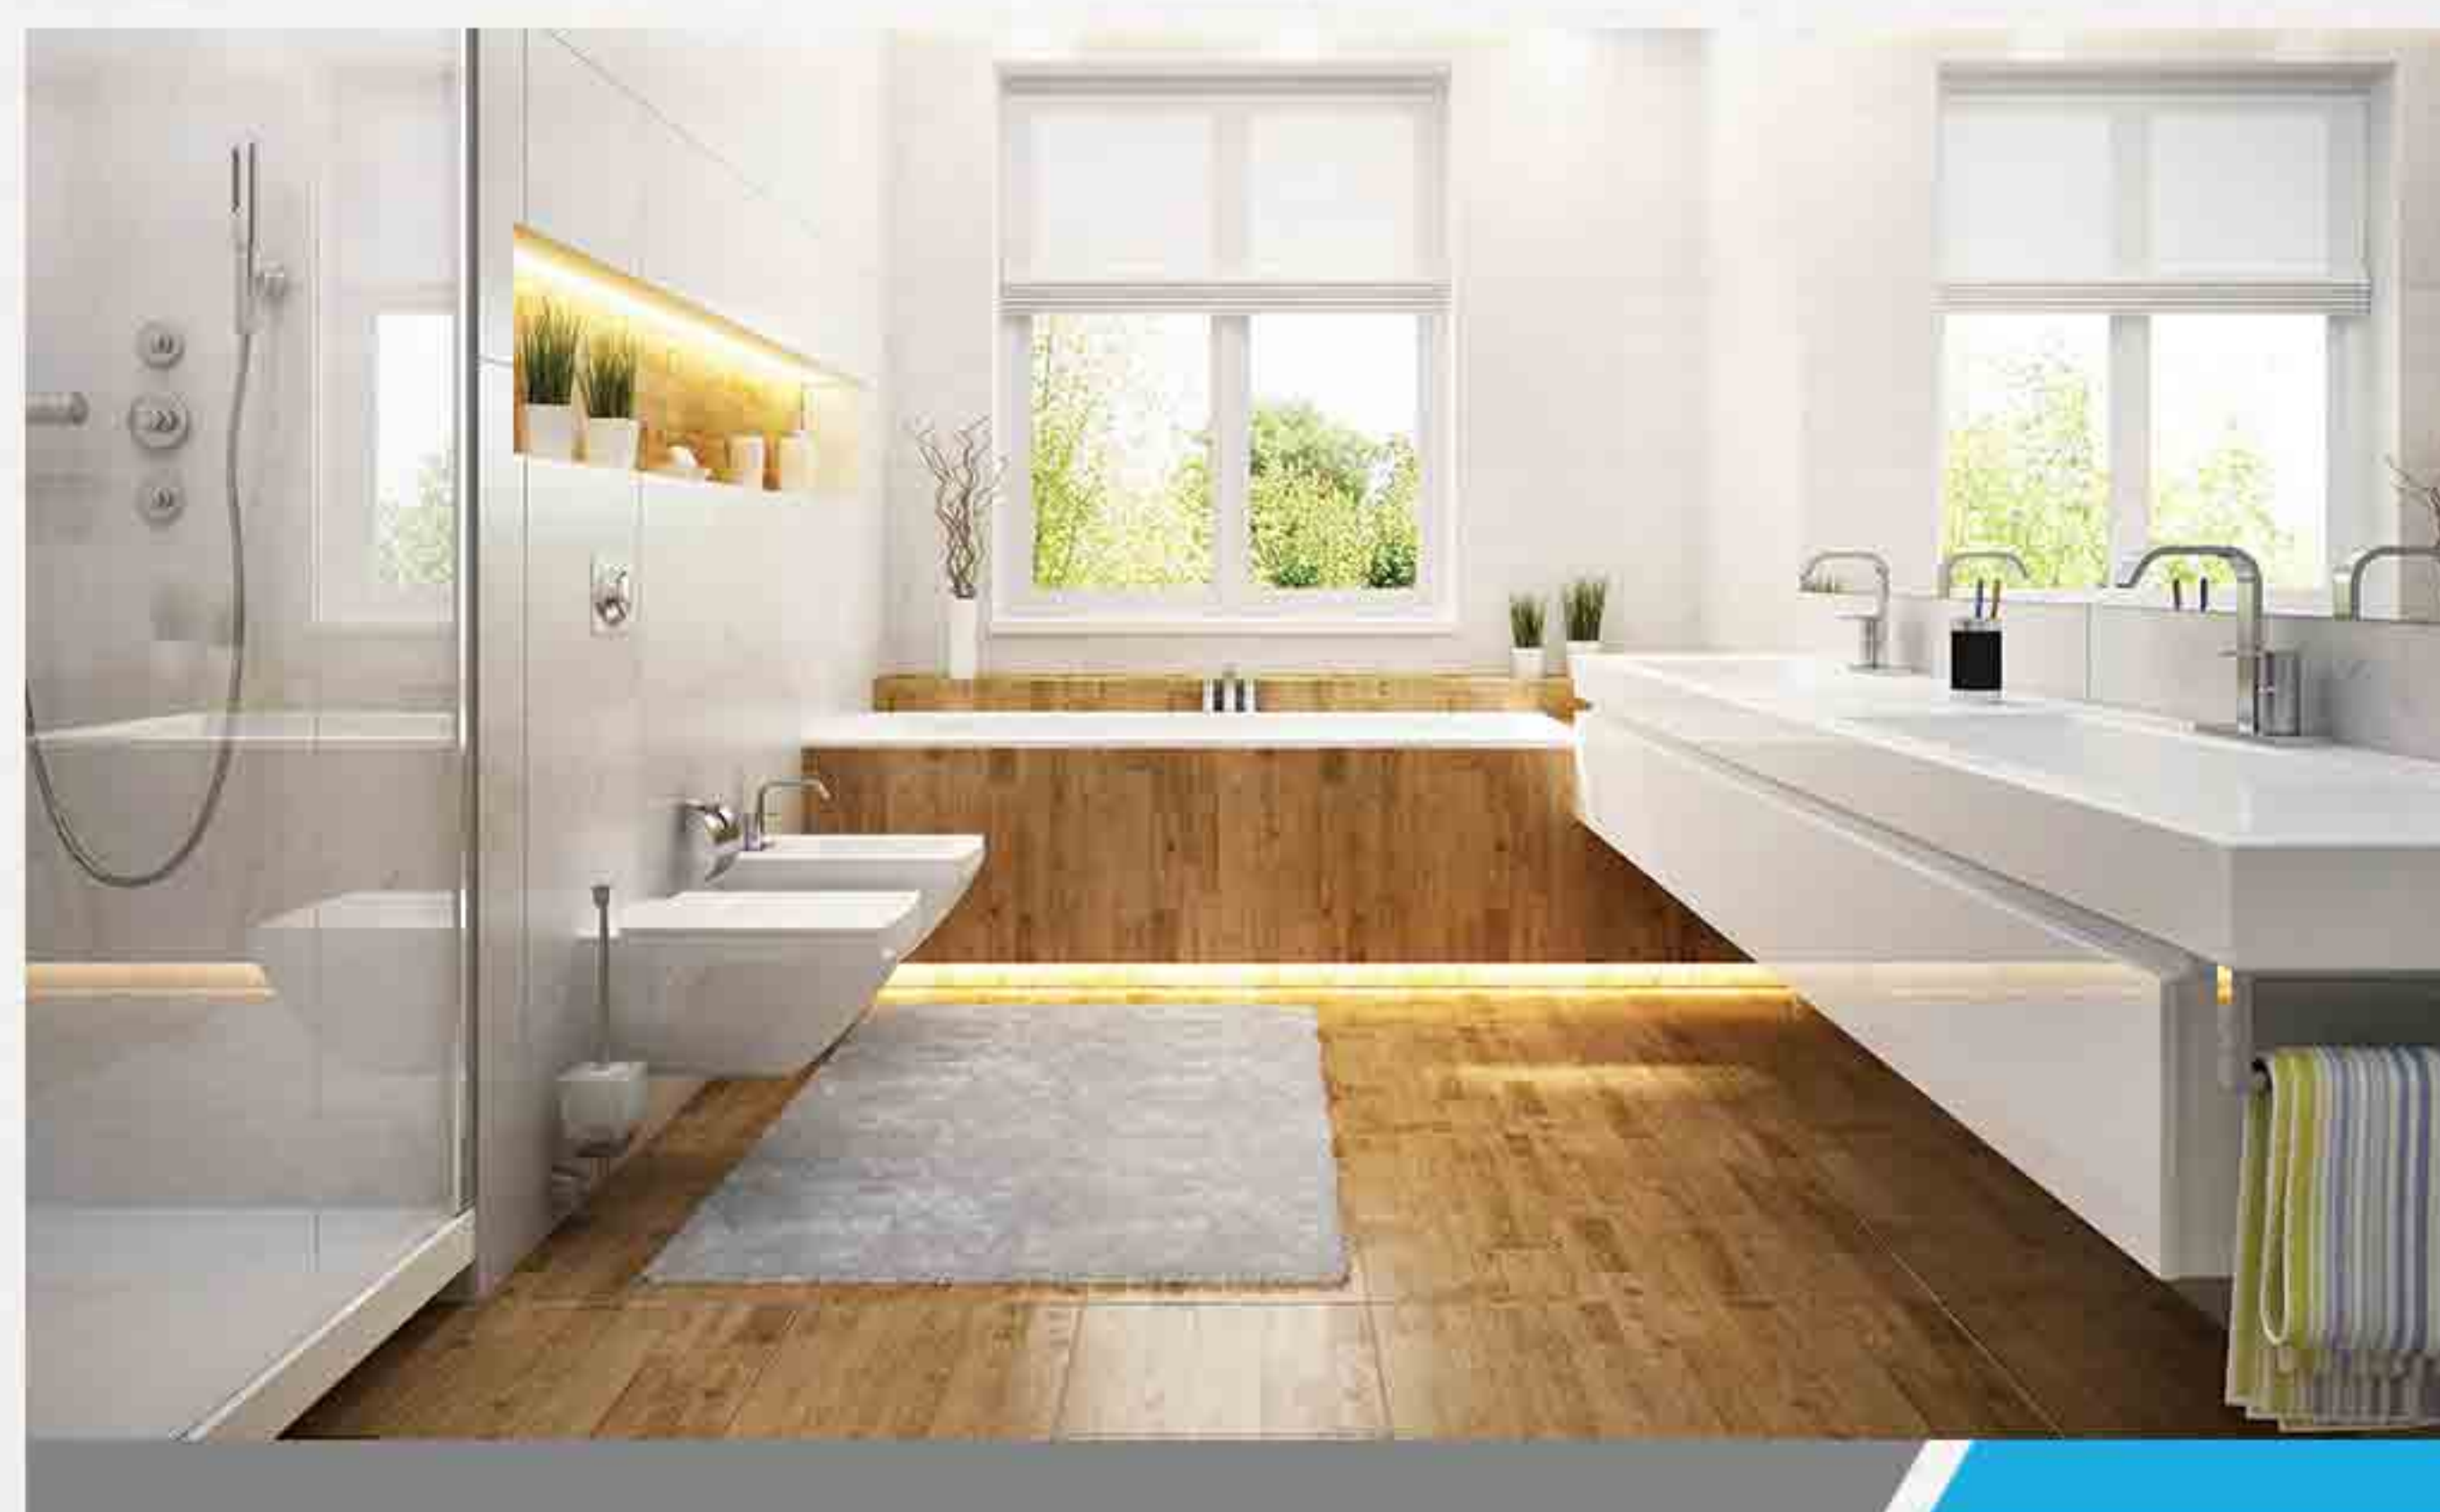

What People Are Saying

"Just as promised. My doors don't spot and look great everytime. Super easy to rinse and squeegee. I only wish I got it applied sooner on my shower door."

– Jim N., Wilmington, DE

"Diamon-Fusion was applied to our new shower enclosure and the maintenance is a piece of cake. There is no evidence of any soap scum or water marks. I couldn't be more pleased with the results."

– Joel R., Armonk, NY

Where to Find Diamon-Fusion

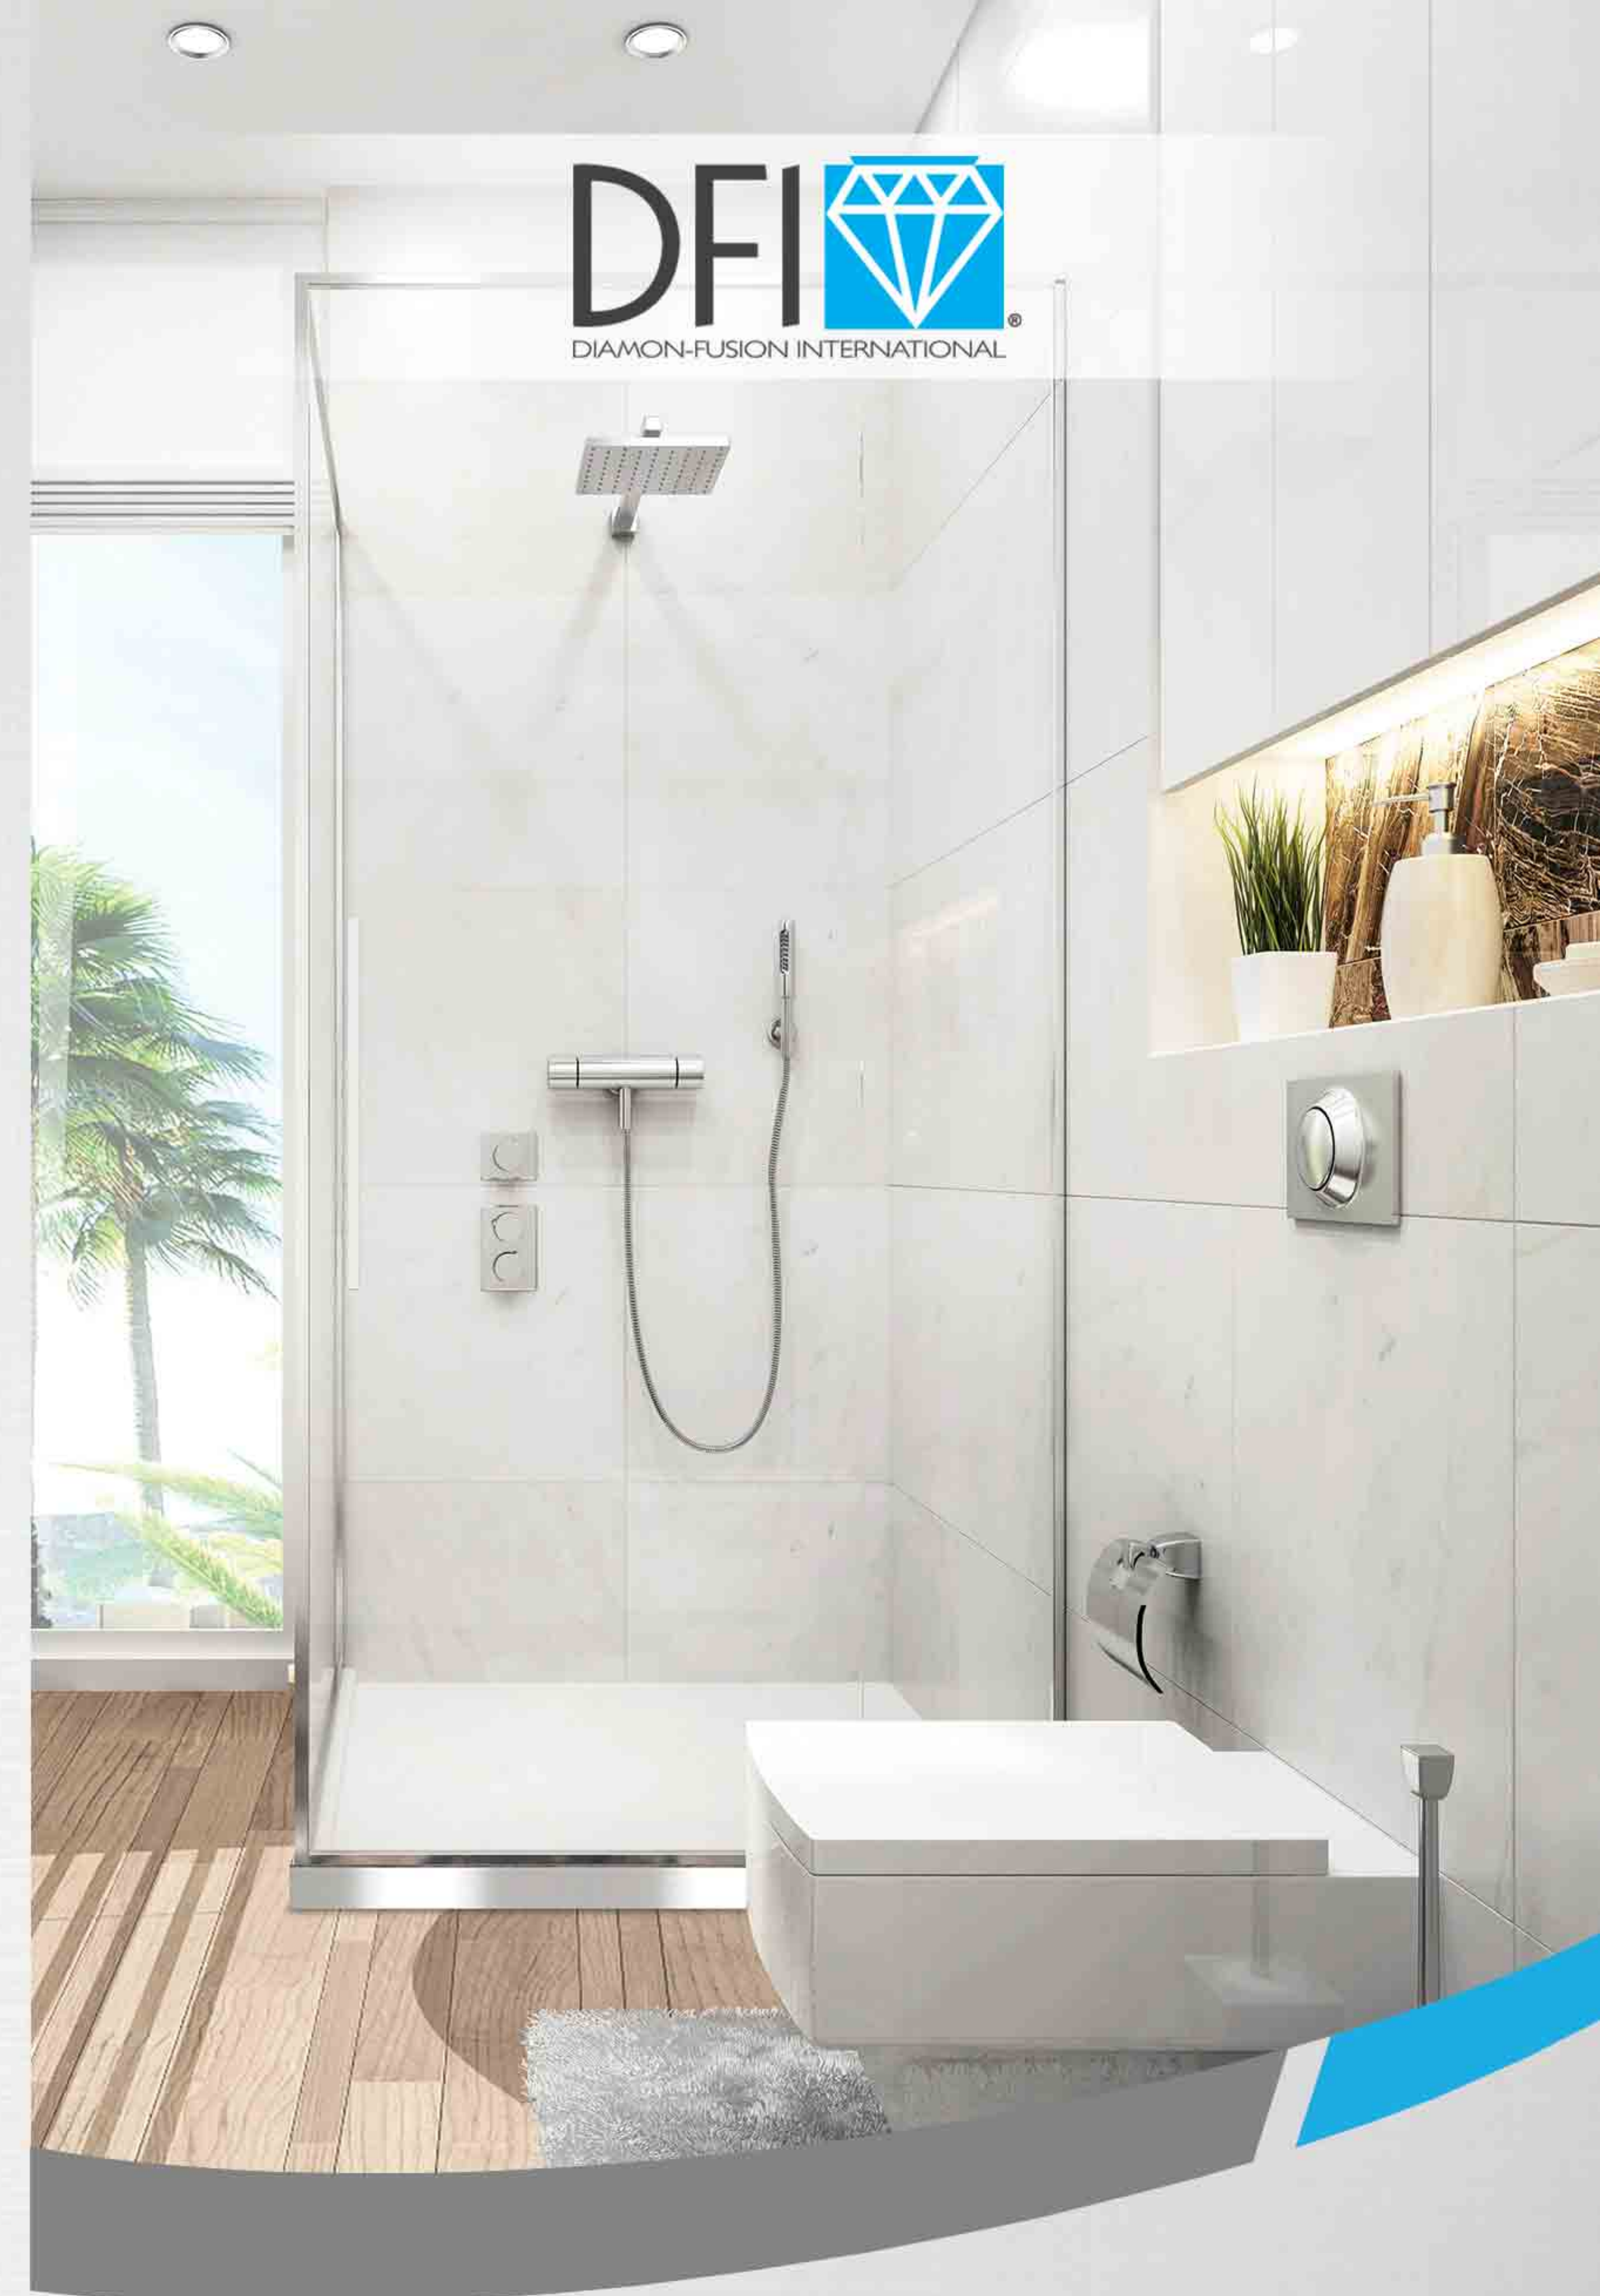

Diamon-Fusion is available through a network of Certified Diamon-Fusion Dealers who are professionally-trained and equipped to protect your glass investments.

Easy-to-Clean Shower Glass Protection

Diamon-Fusion® keeps glass surfaces beautiful for longer.

Proven Glass Protection

Protect your glass investments and keep your shower door looking as beautiful as the day it was installed with Diamon-Fusion protective coating. By chemically bonding to the surface of the glass, Diamon-Fusion transforms ordinary glass into a high-performing, water-repellent surface that helps prevent staining. Similar to how a non-stick cooking pan works, surfaces treated with Diamon-Fusion become easier to clean and require less care to maintain.

Cuts cleaning time up to 90%

Invisible barrier repels water for easier cleaning and more free time

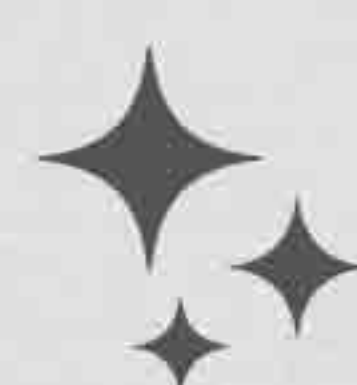

Protects against hard water stains

Helps prevent the buildup of limescale, minerals, and soap scum

Eliminates harsh chemical cleaners

Eco-friendly; saves on water usage and costly cleaners, creating a better environment

Keeps glass cleaner for longer

Reduces the frequency of cleaning

Unparalleled Lifetime Warranty

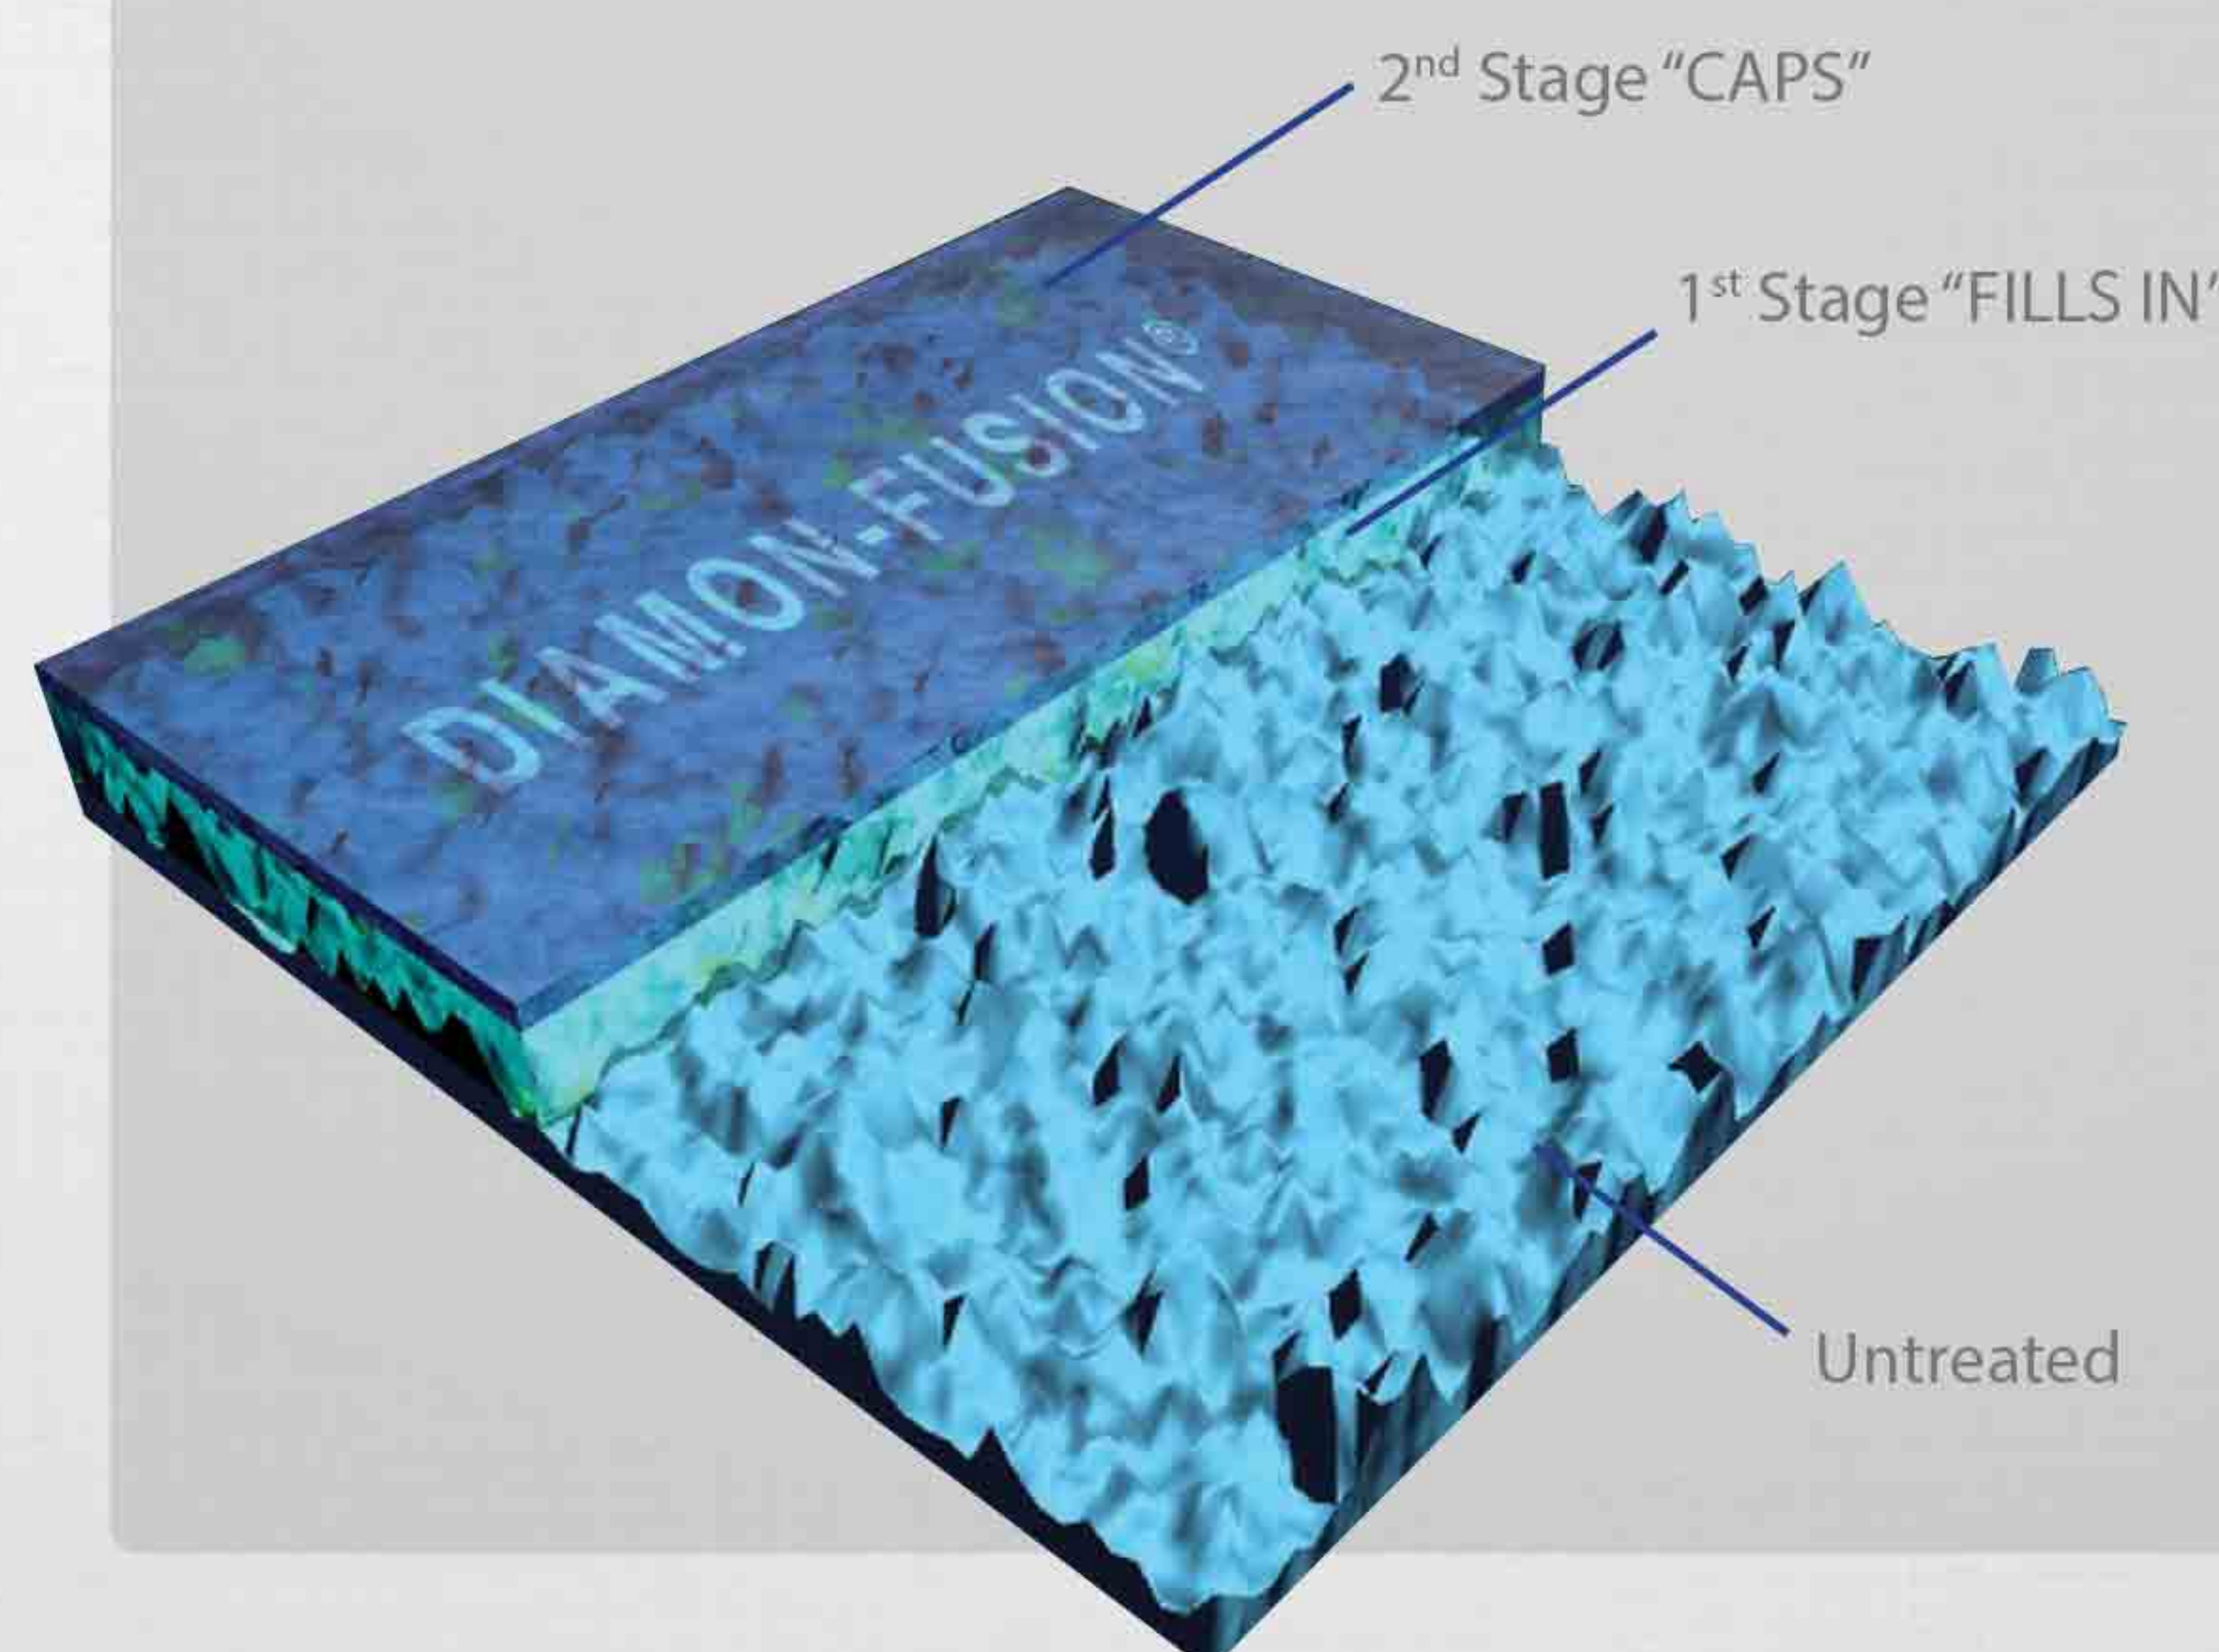

Ultra-thin and transparent, Diamon-Fusion is backed by an unprecedented lifetime warranty for shower doors, as long as the basic manufacturer care recommendations are followed. The glass coating is guaranteed to remain more water-repellent than the untreated surface and will never chip, crack, peel, yellow, or haze.

The invisible barrier created during the Diamon-Fusion process is also UV resistant, which means the coating will not degrade overtime when exposed to sunlight.

How it Works

At a microscopic level, glass is actually quite rough. Inevitably, this allows minerals from hard water, soap scum, and mineral contaminants to easily penetrate the surface causing unwanted stains. Diamon-Fusion prevents this from happening by creating an ultra-thin, transparent barrier that seals the glass.

Its patented, two-step process chemically bonds to the glass filling in the peaks and valleys of the surface.

Multiple Surfaces – One Solution

- Shower doors
- Windows
- Glass railings
- Solar panels
- Kitchen backsplashes
- Tile, porcelain, and granite

Longer-Lasting Beauty

- ◆ **Creates a more hygienic environment**
Addresses water buildup for less bacterial growth
- ◆ **Adds brilliance and 100% optical clarity**
Improves glass clarity and aesthetic appeal
- ◆ **Hydrophobic and oleophobic**
Protects against water and oil-based stains
- ◆ **Low maintenance**
Cleaning is made easy using water and a towel
